

**Source:** [\[KBe2020bio101refProtienIndex\]](#)

- Folded by electrostatic interactions (no energy needed)
    - see [\[KBhBIO101BondingReview\]](#)
    - Reproducible – same structure every time
    - Might get screwed up by
      - pH
        - Screws up charges
      - Heat
        - breaks dipole dipole bonds
-
