## 1 | 08252020

### Electric — Alina Baraz

- Interesting EQ choice on vocals
- Synth panning automation?
- Vocal filtering action
- Drum machine being filtered too
- A LOT of filtering on vocals during chorus + backing vocals being synthesized instead of sung?
- Male chorus seems to be eqed for bases w/ a pretty low HP
- Filter and gain automation on synth create “wobbly” effect
- Ending rain SFX + a mids-only sonud effect
- More wobbly filtering synth

### Film — Aphox Twin

- Already, lot's of drum machine action
- Simple sound texture — but sounds very clean
- Feels randomized at times
- Dropouts!

### Every single thing

- Filter action
- Simple drum motif
- Interesting chorus
- Not quite sure how to describe the high chorus, but it's slightly off-putting

### Black Qualls

- Funky filters + funky vocals
- Synth cutoff
- Various EQ effects on the vocals
- Radio effects

## 2 | 08272020

### Ann Arbor 3&4

- Textured start
- Programmed sequence — cowbells? drumb sequence?
- Unique, semi-irregular synth + pad sequence
- Interesting additional characters — background, auxillrary beats, disk scratches, pads and bells — elements to the music
- Synthesized vocals somewhere at 3:13 — I don't think works very well
- Ending a bit sudden
- Percussion formed central line of song

**Leeway**

- Interesting background texture
- Randomized drum machine
- Vocal gaps + drum gaps immediately follows gaps in beat

**Distance**

- Ahh, yes, the distance
- Vocals starts quite quietly
- “Streetside-guitar” vibe
- Not a large emphasis on percussion — percussion comes behind vocals + constant “ping” of synth

**3 | 09012020****St8 Otta Mumbai**

- Synthesized Indian music style + mixing traditional Indian percussive instruments w/ electronic music techniques
- Vocals textured and filtered heavily
- Using vocals as instrumental + baseline
- Sudden cuts + pauses — harsh transitions
- Lots of variations

**New Chapter**

- Spontaneous, but programmatic drum beats
- Background vocal-based sequences
- Percussive + programming focused sound texture

**Synth Grass**

- Unique, distorted baseline punch
- Lyrics as part of the music
- Automated effects + filter + EQ on vocals

**Plastic 100°C**

- Synth keys + echos
- Very traditional keyboard techniques => no percussion!
  - Simple melody but varied synth techniques
  - Simple vocals =>
- Heavy echos + flatter/natural vocals => simple melody too
- Transition to synth as atmosphere

**4 | 09032020****Similar (Tora)**

- Musical vocal texture
- Simple background guitar riff
- Chorus with space-filling EQ on chorus
- White noise adds texture to vocals
- Innovative shift between falsetto + modal voice
- Chill and traditional vibe

### Atlantis

- Heavy noisy intro — tap vibes?
- Shifts into piano + synth rhythm
- Random sampling and synth patterns

### Them Changes

- Simple drum pattern + white noise
- Simple bass riff
- Guitar “wobble”

## 5 | 09082020

### Multi-Love

- Synth filled intro
- Drum sequence enters after the intro music
- Complicated drum sequence emphasizes music
- Filtered and EQed music texture

### Fake Love

- Most of melody from the vocals
- Background “walla-walla” limited to the background music
- Drum beat seems to be limited to the kick machine
- Baseline very subtle in the background
- Synth tinge in the background

### Beautiful Now

- EDM! + vocal machine intro
- Baseline actually supplied by... a high-pitched synth?
- EDM + Trap style interlude
- Vocals never clear, used as mostly texture and melody

### Lying has to Stop

- Background filter wobble creates interesting, melodic effect
- Vocals come in, with a similar wobble as the one noted above
- Vocals heavily filtered, and as vocals as well
- Guitar with creative filters + EQ creates a similar unbalanced effect

### Coffee

- Interesting video?
- Close up vocals
- Retro flavor

## 6 | 09102020

**Juice**

- Vocals as melody again
- Wobbling synth and claps + white noise as percussion
- Baseline contributed by syncth, feels like Marshmello?
- Bird and nature sounds as decoration
- Various non-traditional percussion techniques
- Chinese drums?

**onett**

- White noise and textured beginning
- Base track
- Chill and again nature sounds

**Chess Bling**

- Trap + Electro vibes?
- Mechanical flute and traditional hip hop backing
- Pauses and gaps in baseline

**.Paak's Lockdown ;)**

- Paak's signature voice...
- Drum as the background + subtle baseline
- Filtered background noise + textured TV footage
- Traditional hiphop + soul techniques in background
- "Siren" as a part of the baseline

## 7 | 09152020

**Fingerprints** - Chill vibes with solo loops - Simple vocals - Simple, acoustic drum sequence - Electronic Flute accutrimonts

**Cucumber Water??** - Drum focused - Electronic chiptone as melody - Transitioned to rap lyrics, but still set to electro

- Finishing with again chiptune music
