### Before we start, notes pre-globalization

- Spanish royals actively prevented trade with China #why
- Current day, emphasis was placed around those in native American regions who were anti-Spanish, yet a large majority of the individuals who really brought globalization were Spanish

## 1 | Effects of the Homogenocene

### Silver...

- (Most?) Important asset
- Got cheapened as soon as the Americas overflowed with it, leading to lot's of silver problems [KBhHIST201ProblemsWithSilver](#)

### The Little Ice Age

See [KBhHIST201LittleIceAge](#) The Little Ice Age

### Capital Movement

#### Original, pre-globalized capitals

- All located within the tropics
  - Beijing
  - Viayanagar (Hindu capital) – Cairo
- Decidedly not western
- Decidedly hot (maybe, but Beijing was definitely not hot #why)

#### Globalized Capitals

- In the north, mostly
  - New York
  - Chicago
  - Tokyo
  - Manchester
  - London
- Much more westiner
- ...and much colder

## Food for thought

- What are some ways that the world was linked together?
  - Trace the effects of a commodity around the world.
    - Silver [\[KBhHIST201ProblemsWithSilver\]](#)
    - Disease
    - Cold weather [\[KBhHIST201LittleIceAge\]](#)
    - Slaves
    - Vegetables
    - Horses
    - Wars
    - Wood
    - Corn
  - What does the homogenocene mean to Mann?
    - Changes to state position?
    - Shift of power?
  - What was the extent and the limits of Spanish power during this period?
- 

**Look out!:** interesting to see when population *drops/booms* instead of climbing/falling *slowly*.

For instance, take Mexico City

- Was really “on top of it”
- But did not experience rapid growth

## 2 | Maps

Guiding question: **what tensions and contrasts do you see between the different maps?**

\_Look for where the boundaries don't match.\_

Them Maps

- When looking at GDP , remember to analyze GDP vs. Population
- Places worth interest
  - Tokyo
  - Shanghai
  - Gulf of Oman
- Places to perhaps focus
  - Transportation w.r.t economy
  - Trans-boundary Rivers w.r.t. conflicts
  - River control w.r.t. control of power
  - Religious boundaries w.r.t. sectarian violence
