## 1 | So, let's do biology

## What makes Biology different?

- · Less predictable
  - · Less laws + more entropy
  - · Changing systems
- · Different scales
- · Organisms
  - · Different genius
  - · Unique constitution
- Wider range + more noticiable on the "scale" of humans
- · Emergent properties over time, not static
- · Moving target of study

Biology is undergoing a serious revolution at the moment...

Now, let's explore some [KBhBIO101PrinciplesofBio] principles of Biology.

## 2 | Course Aftercare

- · Luke De added to the Biology Team
  - · Teaching 2 Bio classes
  - Fill time
- · Trip Sweeney

## Class systems + structures

- · Class Canvas Page
  - Resources textbooks, templates, and essential class information should probably read these!!
    - · One book has an AP Biology focus
    - · The other has a more holistic focus
    - · Optional readings may be pulcked from both
    - Tip: download these
  - · Luke's videos
    - Templates
    - · Class expectations
    - · Course structures
    - · "The boring stuff"
  - · One-on-one meetings: Friday tutorial
    - Do do these!
    - · Meetings encouraged
    - Meetings allowed per-schedule bases during non-Fridays
  - Emails ~24 hrs
  - "Flipped learning" methods employed for instruction

Video for next class: watch a video about WaTeR!
