Electric - Alina Baraz

- · Interesting EQ choice on vocals
- Syncth panning automation?
- · Vocal filtering action
- · Drum machine being filtered too
- · A LOT of filtering on vocals during chorus + backing vocals being synthesized instead of sung?
- · Male chorus seems to be eqed for bases w/ a pretty low HP
- · Filter and gain automation on synth create "wobbly" effect
- Ending rain SFX + a mids-only sonud effect
- · More wobbly filtering synth

Film — Aphox Twin

- · Already, lot's of drum machine action
- Simple sound texture but sounds very clean
- · Feels randomized at times
- · Dropouts!

Every single thing

- · Filter action
- · Simple drum motif
- · Interesting chorus
- Not quite sure how to describe the high chorus, but it's slightly off-putting

Black Qualls

- Funky filters + funky vocals
- Syncth cutoff
- · Various EQ effects on the vocals
- · Radio effects

Ann Arbor 3&4

- · Textured start
- Programmed sequence cowbells? drumb sequence?
- Unique, semi-irregular synth + pad sequence
- Interesting additional characters background, auxillrary beats, disk scratches, pads and bells elements to the music
- Synthesized vocals somewhere at 3:13 I don't think works very well
- Ending a bit sudden
- · Percussion formed central line of song

Compiled September 10, 2020

Leeway

- · Interesting background texture
- · Randomized drum machine
- Vocal gaps + drum gaps immediately follows gaps in beat

Distance

- · Ahh, yes, the distance
- · Vocals starts quite quietly
- · "Streetside-quitar" vibe
- · Not a large emphasis on percussion percussion comes behind vocals + constant "ping" of synth

St8 Otta Mumbai

- Synthesized Indian music style + mixing traditional Indian precussive instruments w/ electronic music techniques
- · Vocals textured and filtered heavily
- · Using vocals as instrumental + baseline
- Sudden cuts + pauses harsh transitions
- · Lots of variations

New Chapter

- · Spontaneous, but programmatic drum beats
- · Background vocal-based sequences
- · Percussive + programming focused sound texture

Synth Grass

- · Unique, distorted baseline punch
- · Lyrics as part of the music
- · Automated effects + filter + EQ on vocals

Plastic 100°C

- Synth keys + echos
- Very traditional keyboard techniques => no percussion!
 - · Simple melody but varied synth techniques
 - Simple vocals =>
- Heavy echos + flatter/natural vocals => simple melody too
- · Transition to synth as atmosphere

Similar (Tora)

- · Musical vocal texture
- · Simple background guitar riff
- · Chrorus with space-filling EQ on chorus
- · White noise adds texture to vocals
- Innovative shift between falsetto + modal voice
- · Chill and traditional vibe

Atlantis

- Heavy noisy into tap vibes?
- · Shifts into piano + synth rythem
- · Random sampling and synth patterns

Them Changes

- · Simple drum pattern + white noice
- · Simple bass riff
- · Guitar "wobble"

Multi-Love

- · Synth filled intro
- · Drum sequence enteres after the intro music
- · Complicated drum sequence emphasizes music
- · Filtered and EQed music texture

Fake Love

- · Most of melody from the vocals
- · Background "walla-walla" limited to the background music
- · Drum beat seems to be limited to the kick machine
- · Baseline very subtle in the background
- Synth tinge in the background

Beautiful Now

- EDM! + vocal machine intro
- · Baseline actually supplied by... a high-pitched synth?
- EDM + Trap style interlude
- Vocals never clear, used as mostly texture and melody

Lying has to Stop

- · Background filter wobble creates interesting, melodic effect
- Vocals come in, with a similar wobble as the one noted above
- · Vocals heavily filtered, and as vocals as well
- · Guitar with creative filters + EQ creates a similar unbalanced effect

Coffee

- · Interesting video?
- Close up vocals
- Retro flavor
