Goal: how did the global history influence and cause us to end up where we are today?

History as familiar? vs. History as foreign? vs. History as present?

Curiosities from history

- · Gender worked differently
- "Horsemanning" => an early form of memeary

1 | History as the reflection of the present

As these countries move forward in time, they could become interdependent

· Events in history could reflect examples for the present

2 | Big questions

- · When did world history became "global history"?
- What forces connected the various regions in the world?
- Since when and in what parts did world history became the history of the West?
 - Where is the West, anyways?
 - How do you define the West? # The Class ## Calendar/Course Outline
