Source: [[KBBiologyMasterIndex]]

- · Protein folder
  - · major topic
- · Nitrogen, Proteins
  - · N critical for amino acids and nucleic acids
  - atmospeher has lots of N\_2
  - Not made by plants nor animals
  - · americans eat meat for protien at environmental expense
  - vegetairians get protien needed w/o meat
  - how can we use our protien composition to make informed decision?
  - Might just update the references from now on, since I don't have time for the regroup and digestion.
