#### Before we start, notes pre-globalization

- Spanish royals actively prevented trade with China #why
- Current day, emphasis was placed around those in native American regions who were anti-Spanish, yet a large majority of the individuals who really brought globalization were Spanish

## 1 | Effects of the Homogenoscene

#### Silver...

- · (Most?) Important asset
- Got cheapened as soon as the Americas overflowed with it, leading to lot's of silver problems [KBhHIST201ProblemsWithSilver]

### The Little Ice Age

See [KBhHIST201LittleIceAge] The Little Ice Age

### **Capital Movement**

### Original, pre-globalized capitals

- · All located within the tropics
  - Beijing
  - · Viayanagar (Hindu capital) Cairo
- · Decidedly not western
- · Decidedly hot (maybe, but Beijing was definitely not hot #why)

#### **Globalized Capitals**

- · In the north, mostly
  - New York
  - · Chicago
  - Tokyo
  - Manchester
  - London
- · Much more westiner
- · ...and much colder

### Food for thought

- · What are some ways that the world was linked together?
- Trace the effects of a commodity around the world.
  - Silver [[KBhHIST201ProblemsWithSilver]]
  - Disease
  - Cold weather [KBhHIST201LittleIceAge]
  - Slaves
  - Vegetables
  - Horses
  - Wars
  - Wood
  - Corn
- · What does the homogenocene mean to Mann?
  - · Changes to state position?
  - · Shift of power?
- What was the extent and the limits of Spanish power during this period?

\_\_\_\_

**Look out!**: interesting to see when population *drops/booms* instead of climbing/falling *slowly*. For instance, take Mexico City

- · Was really "on top of it"
- · But did not experience rapid growth

# 2 | **Maps**

Guiding question: what tensions and contrasts do you see between the different maps?

\_Look for where the boundaries don't match.\_\_

Them Maps

- · When looking at GDP, remember to analyze GDP vs. Population
- · Places worth interest
  - Tokyo
  - Shanghai
  - · Gulf of Oman
- · Places to perhaps focus
  - · Transportation w.r.t economy
  - Trans-boundary Rivers w.r.t. conflicts
  - · River control w.r.t. control of power
  - · Religious boundaries w.r.t. sectarian violence
