Source: [[KBBiologyMasterIndex]]

- · Protein folder
 - · major topic
- · Nitrogen, Proteins
 - · N critical for amino acids and nucleic acids
 - atmospeher has lots of N_2
 - Not made by plants nor animals
 - · americans eat meat for protien at environmental expense
 - vegetairians get protien needed w/o meat
 - how can we use our protien composition to make informed decision?
 - Might just update the references from now on, since I don't have time for the regroup and digestion.
